How ClickFarm Helped a User Turn TikTok’s Purple Ticket into $200,000 Profit

This case was shared with permission. Due to policy compliance and privacy, client identity and full product information are withheld.

👏 The Client Inquiry

Client: Daniel Perez
Platform: TikTok (Purple Ticket Referral Program)
Initial Contact: March 2024, via TikTok search
Total Transactions Before Purple Ticket: 180+ successful collaborations
Latest Goal: Maximize Purple Ticket campaign earnings

Daniel first discovered ClickFarm in early 2024 through TikTok, searching for ways to scale TikTok Shop deals. We began working together on a coupon redemption model using the **TT24** new-user promo code, where he would earn discounts, purchase popular products, and resell them for profit. Over time, this led to over **180 transactions** and a highly trusted long-term partnership.

So when TikTok launched its limited-time **Purple Ticket** referral event, Daniel immediately contacted us again:

💼: “The rules are tight, but this promo is huge. Can we crack it?”
💼: “If you can help me automate this, I think we can make real money — fast.”
